HOORIA AJMAL

ARTIFICIALL INTELLIGENCE GRADUATE (2021-2025) | AI ENGINEER & WEB DEVELOPER

Attock, Pakistan | +92 312 1549498 | hooriaajmal9@gmail.com | https://github.com/hooriaajmal | http://www.linkedin.com/in/hooria-ajmal-544b67318

SUMMARY

AI Engineer & Web Developer skilled in NLP, machine learning, and building LLM-powered agents for automation and conversational interfaces. Experienced with LangChain, Hugging Face, and custom tool integrations. Proficient in creating scalable, production-ready FastAPI backends and React frontends, deploying robust APIs and end-to-end AI web applications. Deliver reliable, maintainable AI systems into production.

TECHNICAL SKILLS

- **Programming Languages:** Python, HTML, CSS, JavaScript, Node.js
- **AI/ML:** Deep Learning, Machine Learning, Natural Language Processing (NLP), Image Processing, Retrieval-Augmented Generation (RAG), Large Language Models (LLMs), Fine-Tuning, Agent Architecture
- **Tools & Frameworks:** Jupyter, Google Colab, Hugging Face Transformers, LangChain, LangGraph, CrewAI, TensorFlow, PyTorch, Vite, Tailwind CSS, React, Framer Motion, Git, LlamaIndex, OpenAI/Gemini/Groq Function Calling
- **Soft Skills:** Communication, Teamwork, Problem-Solving, Adaptability, Critical Thinking

PROJECTS

Urdu Sentiment Analysis on Twitter Data

Personal Project – Python, TensorFlow, Hugging Face, Google Colab

- Built and fine-tuned BiLSTM, CNN, and BERT models to classify Urdu tweets
- Handled multi-class and binary classification with custom preprocessing and class weighting

Urdu Story Generation Model **(https://github.com/hooriaajmal/ASH-Urdu-Story-Generation)**

Group Project – Python, PyTorch, Transformers, LLaMA 3.1, Gemini, LangChain, MongoDB, FastAPI, Streamlit, TTS, Stable Diffusion, MusicGen

- Developed an AI-based system to generate and narrate Urdu stories
- Used LLaMA 3.1 (8B) for story generation and TTS for audio narration
- Integrated video and music generation tools for enhanced storytelling

PROFESSIONAL EXPERIENCE

AI Intern, Kindi AI (Virtual) **Oct 2024 – Jan 2025**

- Transformed input audio into expressive speech using deep learning.
- Developed speech-to-speech systems preserving speaker identity and tone.
- Contributed to model experiments, inference pipelines, and testing setups.

Web Development Intern, Elevvo Pathways (Remote) **Aug 2025 – Sep 2025**

- Built and maintained responsive websites using React, Tailwind CSS, and Vite.
- Developed reusable UI components and applied animations with Framer Motion.
- Improved site performance and accessibility for better user experience.

EDUCATION

Bachelor of Science in Artificial Intelligence **Oct 2021 – Aug 2025**

COMSATS University Islamabad, Attock Campus — **CGPA: 3.60**

- Relevant Courses: Machine Learning, Deep Learning, NLP, Image Processing

ADDITIONAL INFORMATION

Certifications:

- AI Internship — Kindi AI | 2025
- Web Development Internship — Elevvo Pathways | 2025

Languages:

- English (Fluent), Urdu (Native), Pashto (Native)
